This document is designed to help orient you to UW Health, including UnityPoint Health – Meriter, and to clarify billing practices and payment processes. Please note that all locations may not be included in every contract arrangement. Physicians and non-physician professionals also provide regional specialty services and other services at a variety of locations that may or may not fall under a given contractual arrangement.

This information will provide you with an overview of the components of the health systems, as well as assist you and your staff in day-to-day activities involved in administering provider agreements with UW Health.

Every effort has been made to ensure accuracy, however, such information can become outdated quickly. The reader is advised to confirm critical information by phone or email. This document is updated annually and can be obtained online or by contacting UW Health Managed Care Contracting at (608) 828-8603.

Welcome to UW Health

UW Health is the integrated health system of the University of Wisconsin-Madison, serving more than 700,000 patients each year in the Upper Midwest and beyond with 1,849 employed physicians and 21,000 staff at more than 140 locations. UW Health is governed by the UW Hospitals and Clinics Authority and partners with UW School of Medicine and Public Health to fulfill shared missions of patient care, research, education and community service.

UW Health is a nationally recognized regional health system that includes:
- University Hospital
- UW Health at The American Center
- American Family Children's Hospital
- UW Health Rehabilitation Hospital
- UnityPoint Health - Meriter
- UW Health Regional Hospitals: UW Health SwedishAmerican Hospital located in Rockford, Illinois, and an associated inpatient/outpatient medical center in Belvidere, Illinois
- Six Regional Cancer Centers:
  - Beloit Cancer Center (Beloit, WI)
  - FHN Leonard C. Ferguson Cancer Center (Freeport, IL)
  - SwedishAmerican Regional Cancer Center (Rockford, IL)
  - UW Cancer Center at ProHealth Care (Pewaukee, WI)
  - UW Cancer Center Johnson Creek (Johnson Creek, WI)
  - UW Cancer Center Aspirus Riverview Hospital (Wisconsin Rapids, WI)
- Regional services specialty clinics in more than 70 locations
- University of Wisconsin Medical Foundation, the state's second-largest medical practice group, representing 1,525 faculty physicians of the University of Wisconsin School of Medicine and Public Health
- Quartz Health Solutions, a subsidiary health insurance provider with more than 365,000 members in a 43-county region in Wisconsin, parts of Illinois, Iowa and Minnesota. Quartz also provides administrative services for self-funded health plans
- Joint Ventures and affiliations including cancer centers, surgery centers, dialysis programs, home health, infusion, and many other programs and services
UW Health Managed Care Contracting

UW Health holds more than 150 managed care agreements to deliver primary, specialty and other health care services locally, regionally and nationwide. UW Health contracts on behalf of University of Wisconsin Hospitals and Clinics (UWHC), University of Wisconsin Medical Foundation (UWMF), University of Wisconsin School of Medicine and Public Health (UWSMPH), Chartwell Midwest Wisconsin, d/b/a UW Health Care Direct (CMW), Generations Fertility Care (GFC), Madison Surgery Center (MSC), Transformations Surgery Center (TSC), UW Health Rehabilitation Hospital (UWRH), Wisconsin Sleep, Inc. (WSI), SwedishAmerican Health System (SAHS), and UnityPoint Health - Meriter (UPH-M).

Not all entities may be contracted through UW Health. Please contact your UW Health Managed Care Program Manager for more information.

Credentialing

UW Health Medical Staff Affairs and Credentialing
All physicians, advance practice nurses, and physician assistants who practice at UW Health, must be credentialed through the Medical Staff Affairs Office. The process meets state and federal law and The Joint Commission (TJC) standards. This process is also consistent with National Committee for Quality Assurance (NCQA) standards. We verify licensure, DEA registration, malpractice insurance, board certification, professional school graduation, post-graduate training and staff affiliations.

Medical Staff Affairs works with the clinical departments, providers, and various committees to ensure timely processing of each application. They provide verification of current and past UW Health affiliation. Questions regarding credentialing and privileging procedures should be directed to Medical Staff Affairs at (608) 263-6601 or uwmedstaff@uwhealth.org. The Medical Staff Affairs Office also provides administrative support to the Medical Staff organization. These activities include coordinating the activities of the Medical Board, the annual revision of the bylaws and the functions of the standing committees of the medical staff. Questions regarding the administrative functions of the medical staff should be directed to Michele Klaus at (608) 890-7527 or mklaus@uwhealth.org.

SwedishAmerican Health System Medical Staff Services and Credentialing
All physicians, podiatrists, dentists, advanced practice registered nurses and physician assistants who practice at SwedishAmerican must be credentialed and privileged through the Medical Staff Services Department. SwedishAmerican Health System’s credentialing program is the premier credentialing system in the region. The credentialing process exceeds the elements required by TJC, Centers for Medicare & Medicaid Services (CMS), and the NCQA. The requirements of these entities are used as a baseline from which we have built our program. A leader in the region, we integrate and maintain best practices for credentialing and privileging. Medical Staff Services works side by side with each applicant, Physician Resources, exclusive contracted entities, and all independent entities, to ensure timely completion of the credentialing process for each applicant. Questions regarding credentialing, privileging, and medical staff structure, should be directed to the Medical Staff Services Department at (779) 696-2097 or credentialing@swedishamerican.org. The Medical Staff Services Department also provides administrative and compliance support to the medical staff as a whole, including medical education resources. Some of these activities include medical staff bylaws and leadership support, to ensure continued compliance with regulatory and accreditation bodies. As evidenced by our lack of negligent credentialing lawsuits, SwedishAmerican Health System continues to set the bar in the region for credentialing practices for both hospital and health plans.
UnityPoint Health - Meriter Medical Staff Services and Credentialing

All physicians, dentists, podiatrists, psychologists, certified nurse midwives, advance practice nurses, and physician assistants who practice at UPH-M must be credentialed through the Medical Staff Office. The process meets state and federal law, TJC standards and NCQA standards. Prior to the granting of hospital or clinic privileges, all education, training, current competence, malpractice claims history and coverage, licenses and registrations, and staff affiliations will be reviewed and verified. The Medical Staff Office works with the providers, department chairs, and various committees to ensure timely processing of each application. The Medical Staff Office also provides verification of past and current affiliation. Questions regarding the credentialing and privileging process for UPH-M can be directed to the Medical Staff Office at (608) 417-6326 or by email to: Ana.johnson@unitypoint.org or Heidi.kimble@unitypoint.org. In addition to credentialing, the Medical Staff Office also provides administrative support to the organized medical staff, including coordinating and staffing the Medical Executive Committee meetings, various hospital departmental meetings, annual Medical Staff Bylaws review, revision and approval process, and medical staff policy creation and revision. Questions regarding the administrative functions of the Medical Staff Office should be directed to Heidi Kimble at (608) 417-6104 or Heidi.kimble@unitypoint.org.

Not all providers are credentialed through these processes (i.e., some non-physician professionals). Please contact your UW Health Managed Care Program Manager for more information.
Health Information – Release of Information

Requests for medical record information from UW Health should be addressed to the Release of Information section of the Health Information Management Department. Questions on release of information procedures may be directed to the Health Information Management Department at (608) 263-6030. Requests for patient information that require an authorization shall be submitted on the UW Health authorization form or another authorization form that meets Wisconsin and HIPAA regulations.

There are some requests for information where patient authorization is not required. Those are however limited, so please work with the Health Information Department. All disclosures made have a required documentation process about the request and when it was disclosed. Requests for release of information that may not require an authorization, must be provided on requestor letterhead (including name and address), and include patient name, DOB, details of specific information needed and reason for the request.

Requests for medical information should be addressed to the following:

Hospital Audit Policy

UW Health Non-Government Claim Audits

I. PURPOSE

The purpose of this policy is to define the process for external claims and payment audits and post-service review conducted by third party auditors and payors which are not government-directed.

II. DEFINITIONS

A. Auditing Firm: a firm acting on the behalf of a health insurance carrier who is recognized as competent to perform or coordinate claim audits and other overpayment and underpayment recovery solutions.

B. Clinical Validation Audit: review and/or analysis of UW Health’s medical records to verify whether diagnoses documented are clinically substantiated by clinical criteria generally accepted by the medical community and industry standards like AHIMA and ACDIS. Note that DRG Validation and Clinical Validation arguments are generally embedded into the same audit. The audit commences when the payor requests medical records for purposes of validating the assigned diagnoses for purposes of assigning an alternative DRG other than that which was billed.

C. DRG Validation Audit: review and/or analysis of UW Health’s medical records to verify DRG assignment and payment accuracy. The review might involve validating that inpatient services are physician ordered and/or determining whether coding on a claim and other factors which impact the assigned DRG, and claim payment are supported by the respective medical record and assigned in accordance with industry coding standards as outlined by ICD-10 CM/PCS, Official Coding Guidelines, AHA Coding Clinic, regulatory agencies, ACDIS, and AHIMA. The audit commences when the payor requests medical records for purposes of validating the assigned DRG or to assign an alternative DRG other than that which was billed.

D. Outpatient Coding Audit: review and/or analysis of UW Health’s medical records to verify diagnosis and/or CPT codes and modifiers for accuracy. The review might involve validating that the codes for outpatient services performed are accurate based on medical record documentation. This must be supported as outlined by industry standards like AAPC, ICD-10-CM Official Coding Guidelines, AMA CPT Rules, AHA Coding Clinic, CPT Assistant, regulatory agencies, ACDIS, and AHIMA. The audit commences when the payor requests medical records for the purposes of validating the assigned diagnosis and/or procedure codes (along with any assigned modifiers) other than that which were billed.

E. Hospital Bill Audit: review and/or analysis of UW Health’s itemized billing statement and/or medical records against a payor’s payment, reimbursement, clinical, or other policies. The review looks for billing errors, duplicate charges, undocumented charges, capital equipment charges, implants and supplies, nursing function charges, respiratory therapy charges, bundling opportunities, etc. The review may be conducted on a pre- or post-adjudication basis. The audit commences upon the payor’s request of an itemized statement for purposes other than stop loss payment. Examples include, but are not limited to, itemization requests delivered in the 837 EDI Transaction or itemization requests received verbally, electronically, via mail, or via facsimile.
F. Medical Necessity Audits: review and/or analysis of billing status (outpatient vs. inpatient) or whether the medical services provided satisfied a given payor policy, medical benefit, or diagnosis requirement. Billing status denials typically involve the payor alleging that an inpatient status hospitalization should have been billed with an outpatient status.

III. POLICY ELEMENTS

A. Qualifications of Auditors
   1. All persons performing claim audits shall have the appropriate knowledge, experience, and expertise in health care including, but not limited to, the following areas:
      a. Format and content of the health record as well as other forms of medical and clinical documentation;
      b. Generally accepted auditing principles and practices as they apply to claim audits;
      c. Billing claim forms, including the UB-04 and CMS 1500, and charging and billing procedures;
      d. All state and federal regulations concerning the use, disclosure, and confidentiality of patient records;
      e. Specific critical care units, specialty area, and ancillary units involved in a particular audit; and
      f. Coding, including ICD-10, CPT, HCPCS, and medical terminology;
      g. Auditor/reviewer qualifications should align with the audit at hand (e.g., inpatient shall be certified as a RHIT, RHIA, CCS, Clinical Validation DRG auditors shall be an RN or CCDS, etc.).
   2. Should UW Health encounter audit personnel who do not meet these qualifications, UW Health has a right to immediately terminate the audit due to failure to comply with UW Health’s auditing policy through written notice to both the auditing firm and payor.
   3. Audit personnel shall conduct themselves in a professional manner and adhere to ethical standards and confidentiality requirements and shall remain objective. Auditors must not be placed in any situation through their remuneration, benefits, contingency fees, or other instructions which might call their findings into question. Upon request, the firm shall provide such details should UW Health identify potential conflicts of interest in the auditing process.

B. Audit References
   1. Supporting references shall align with the respective date of service (e.g., Official Coding Guidelines from 2019 must not be applied to a 2020 date of service). It should be noted that for inpatient admissions, the date of discharge dictates the reference date.
   2. DRG, Clinical Validation, and Outpatient Coding Audit references must comply with industry standards as outlined in the audit definitions and UW Health’s internal policies where they prevail.
   3. Hospital Bill Audit references must comply with industry standards appropriate to the place of service (e.g., outpatient billing rules must not be applied to inpatient claims) and reimbursement methodology (e.g., CMS guidelines apply to Medicare Advantage products, not to commercial claims).
C. UW Health Clinical Practice Guidelines
   1. UW Health Clinical Practice Guidelines are systematically developed based upon available evidence or expert opinion and assist clinicians in diagnosing and treating specific patient populations.

   2. Approved guidelines can be found at www.uwhealth.org by typing “guidelines” in the main search field and selecting the featured result “Center for Clinical Knowledge Management (CCKM): Clinical Tool Search.” From this point, users can search for UW Health guidelines specific to conditions entered in the search field.

D. Medical Necessity and Status of Patient Admissions
   1. Medical necessity describes a health care service that a health care professional, exercising his/her prudent judgment, would provide to their patient for the purpose of evaluating, diagnosing, or treating an illness, injury, disease or its symptoms and that is:
      1) in accordance with the generally accepted standards of medical practice; 2) clinically appropriate in terms of type, frequency, site, and duration, and considered effective for the patient’s illness, injury, or disease; 3) not primarily for the convenience of the patient or the health care professional; and 4) not more costly than an available alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of that patient’s illness, injury, or disease.

   2. Medical necessity audit criteria should be based upon both and industry standard guidelines like InterQual or MCG, national and international consensus definitions of medical conditions (e.g., Fourth Universal Definition of Myocardial Infarction), and internal UW Health guidelines. Such guidelines supplement but do not substitute a provider’s independent judgment.

E. Audit Submission, Appeal, and Appeal Response Guidelines
   1. Auditing firms’ internal appeal deadlines shall not override the underpayment/overpayment appeal deadlines embedded in UW Health and the respective payor’s contract. Should a payor be non-contracted with UW Health, UW Health shall have 90 days to appeal an audit request.

   2. Audit findings letters must include sufficient information to outline the firm’s position, including appropriate application of industry standards to the facts presented in the itemization or medical record.

   3. Payors and/or auditing firms shall respond to appeals within the underpayment/overpayment response deadlines embedded in UW Health and the respective payor’s contract. Should a contract be silent on the matter or the payor is non-contracted with UW Health, the payor shall respond within 45 days to the appeal.

F. Appeal denials must include sufficient information to address UW Health’s purported arguments with appropriate citations to applicable industry references.

Payment of Claims Undergoing Audit
   1. Payment of a bill shall be made promptly and shall not be delayed by an audit process.

   2. A payment of 95% of the insurance liability shall be an acceptable amount prior to the demonstration of an intent to perform an audit.

   3. Any payment identified in the audit results, that is owed to either party by the other, shall be settled by the audit parties within a reasonable period of time, not to exceed 30 days after the audit finalization unless UW Health and the payor agree otherwise.
IV. PROCEDURE

A. All auditing procedures, which are not addressed in the aforementioned sections of this policy are addressed below.

1. Hospital Bill and Medical Necessity Audits
   a. Hospital Bill Audits and Itemization Requests must be initiated by securely e-mailing UWHealthExternalAudits@uwhealth.org or faxing 608.833.3247.
   b. A non-refundable audit fee of $500.00 must be paid, in advance. Checks should be made payable to University of Wisconsin Hospital and Clinics. In no case will an audit be scheduled until at least 95% of the total benefit due is paid.
   c. All Hospital Bill Audits must be conducted on-site at a UW Health location. At the end of each audit, an exit interview shall be held between the payor’s audit representative and UW Health’s Revenue Integrity Auditor. The payor/auditing firm and UW Health will make best efforts to be prepared to conduct an exit interview on the date of the site visit. At the exit interview, both UW Health and the auditing firm/payor will present audit findings which identify any overpayments and underpayments.
   d. Further disputed underpayments and overpayments shall be addressed directly with the payor within the escalation processes outlined in the UW Health contract or the payor’s provider manual if non-contracted.

2. Inpatient DRG, Clinical Validation or Outpatient Audit
   a. All Coding (DRG/Outpatient) or Clinical Validation Audit Finding letters must be sent by securely e-mailing UWHealthExternalAudits@uwhealth.org; these audits will be conducted exclusively offsite.
   b. The audit findings letter must include a detailed explanation including the clinical rationale and/or official coding references of the reason for any diagnosis or procedure code changes and/or removal.
   c. Further disputed underpayments and overpayments shall be addressed directly with the payor within the escalation processes outlined in the UW Health contract or the payor’s provider manual if non-contracted.
