Agenda

I. Medical Staff Membership and Clinical Privileges

   Executive Summary - Medical Staff Membership and Clinical Privileges

   Attachment - Medical Staff Membership and Clinical Privileges - August 2023

Approval
Executive Summary

Date: August 22, 2023
RE: Medical Staff Membership and Clinical Privileges

UWHCA Board of Directors,

Appointments and reappointments of the medical staff and delineation of their clinical privileges shall be in accordance with the UWHC Medical Staff Bylaws approved under Section 7.1. This agenda item is typically presented on the UWHCA Board Open Session consent agenda. Due to there not being an August UWHCA Board of Directors meeting, we have been asked to process the request via written consent to reduce the wait time for faculty.

Following protocol, the UWHC Medical Board met on August 10, 2023, and upon the recommendation of the Credentials Committee and in accordance with the Medical Staff Bylaws, approved the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC.

Attached is the “Review of Medical Staff” document submitted by the UWHC Medical Board for UWHCA Board of Directors approval.

If you have any questions regarding the document, please contact Dr. Michael Peterson, Chair of Medical Board & President of Medical Staff at mpeterson2@wisc.edu.

After reviewing, please record your vote (Approve/Abstain/Deny) and add your electronic signature via the BoardEffect portal. If you have any questions regarding BoardEffect, please contact Patti Meyer at pmeyer2@uwhealth.org.

Thank you for your prompt response.

Attachment
The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: July 17 & August 7, 2023
Medical Board: August 10, 2023

Michael Peterson, MD
Chair of Medical Board & President of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**July 17, 2023**

**New Applications—Medical Staff**

**Christopher D. Anderson, MD, Active Staff**
Department of Medicine/General Internal Medicine

Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods, supervision of physician assistants with prescriptive authority, and supervision of residents, fellows, and others in training.

Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, supervision of physician assistants with prescriptive authority, and supervision of residents, fellows, and others in training. These privileges include care of patients via telemedicine.

**Andrea L. Axtell, MD, Active Staff**
Department of Surgery/Cardiothoracic

Cardiothoracic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include transplantation of the heart and/or lung; ventricular assist devices; ECMO cannulation; management of ECMO; pediatric cases within scope of training; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training. These privileges include care of patients via telemedicine.

Use of surgical laser
Robotic Bronchoscopy

Adult Moderate Sedation at all UWHCA locations - includes UH, East Madison Hospital, DHC, and UWHC Clinics

Use of surgical robot for procedures otherwise privileged to perform.

Fluoroscopy
Beau D. Batty, DO, Active Staff
Department of Psychiatry
Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders including admit to inpatient psychiatric unit. These privileges also include care of patients via telemedicine. These privileges include supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.

Patrick J. Belton, MD, Active Staff
Department of Neurological Surgery
Neurological Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the neurological system, including the supporting structures and vascular supply. These privileges include, but are not limited to, craniootomy and craniectomy; reconstructive cranioplasty; laminctomy; spinal fusion; chemonucleolysis; percutaneous disectomy; transsphenoidal hypophysectomy; CSF shunting procedures; radiofrequency chemical rhizotomy/choridotomy; intracarotid injection; peripheral nerve surgery; extra-extracranial anastomosis; carotid endarterectomy; myelomeningocele repair; neurostimulation and recording; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. Neurocritical Care Core Privileges: Privileges to admit, evaluate (including H&P), diagnose, consult and provide medical treatment to patients with critical illnesses or injuries of the brain, spinal cord, nerves, vessels, and their supporting structures with associated medical problems complicating their care. Adult Moderate Sedation ONLY within University Hospital or UW Health East Madison Hospital.

Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, central line and Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; supervision of advanced practice providers; and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Justin C. Bohrer, MD, Active Staff
Department of Obstetrics and Gynecology/Maternal Fetal Medicine
Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.

Andrew J. Bowen, MD, Active Staff
Department of Surgery/Fellow (Laryngology)
Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine. Use of surgical laser

Kayla N. Bradburn, MD, Active Staff
Department of Orthopedics and Rehabilitation/Fellow (Spine Surgery)
Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived
laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. supervision of physician assistants with prescriptive authority.

Fluoroscopy

**Heather A. Childers-Okas, DO, Active Staff**

**Department of Medicine/Hospital Medicine**

Internal Medicine/Hospital Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, providing care via inpatient service and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

**Jeanette R. Comstock, MD, Active Staff**

**Department of Dermatology**

Dermatology Core Privileges: Privileges to admit, evaluate, diagnose, consult, and treat patients presenting with illnesses and or injuries of the integumentary system. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, excision or other means of removal (including by liposuction) of benign and malignant lesions; curettage; electrosurgery; liquid nitrogen cryosurgery of the skin and other appropriate lesions; nail surgery; actinotherapy treatments (phototherapy - e.g. PUVA); collagen implantation; injectable fillers; Botox injections; dermabrasion; chemical peels; laser treatments; sclerotherapy; dermatopathology; flaps and grafts; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.

**Elizabeth M. Cooper, MD, Active Staff**

**Department of Surgery/Fellow (Endocrine)**

General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

**Christopher P. Cost, MD, Active Staff**

**Department of Urology**

Urology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses or injuries of the genitourinary system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

Use of surgical laser

**Olga M. Fajardo, MD, Active Staff**

**Department of Obstetrics and Gynecology/Gynecology**

Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.

Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

**Ekaterina Fedorova, MD, Active Staff**

**Department of Surgery/Fellow (Transplant Surgery)**

General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion
and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

Organ Procurement
Connor W. Gullstrand, MD, Active Staff
Department of Medicine/Hospital Medicine
Internal Medicine/Hospital Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, providing care via inpatient service and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Paracentesis
Thoracentesis

Charles J. Hansen, MD, Active Staff
Department of Orthopedics and Rehabilitation/Fellow (Spine Surgery)
Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. supervision of physician assistants with prescriptive authority.

Fluoroscopy
Ryan J. Hutten, MD, Active Staff
Department of Human Oncology
Radiation Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, with malignant and benign tumors, as well as other conditions where radiotherapy has a role. These privileges include, but are not limited to, administration of external beam radiation therapy, brachytherapy, naked or tagged radioisotopes (including intraloesional, intracavitary, intracystic, intravenous, intra-arterial or other routes of administration), radiosensitizers, radioprotectors and other therapeutic drugs required in the routine management of these patients; management and maintenance of indwelling brachytherapy catheters and other devices for delivery of brachytherapy or other forms of radiation; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and other persons in training.

Mariya S. Kochubey, MD, Active Staff
Department of Surgery/Acute Care and Regional General
General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

James G. Kohler, MD, Active Staff
Department of Orthopedics and Rehabilitation/Fellow (Arthroplasty)
Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority.

Fluoroscopy
Ashley N. Krepline, MD, Active Staff
Department of Surgery/Fellow (Transplant)
General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of
Residents, fellows and others in training. These privileges include care of patients via telemedicine.

Corey J. Lehnt, MD, Active Staff

Department of Psychiatry

Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders including admit to inpatient psychiatric unit.

These privileges also include care of patients via telemedicine. These privileges include supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.

Electroconvulsive therapy

Natalie Liu, MD, Active Staff

Department of Surgery/Fellow (MIS)

General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

Anjali S. Rao, MD, Active Staff

Department of Pediatrics/Developmental

Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

Bryan J. Nagle, MD, Active Staff

Department of Neurology

Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges also include care of patients via telemedicine.

Andrew J. Redmann, MD, Active Staff

Department of Surgery/Otolaryngology

Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges also include care of patients via telemedicine.

Use of surgical laser

Natalia I. Rush, MD, Active Staff

Department of Pathology and Lab. Medicine

Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include
supervision of residents, fellows and others in training. These privileges also include performance of duties via telemedicine. Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include performance of duties via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Rani M. Saoud, MD, Active Staff**

**Department of Medicine/Hospital Medicine**

Internal Medicine/Hospital Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, providing care via inpatient service and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

**Ryan L. Sappenfield, MD, Active Staff**

**Department of Pathology and Lab. Medicine**

Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training. These privileges also include performance of duties via telemedicine.

Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include performance of duties via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Jakub M. Siembida, MD, Active Staff**

**Department of Radiology/Cardiovascular Imaging (MRI)**

Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine and fluoroscopy in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography, supervision of physician assistants with prescriptive authority, and supervision of residents, fellows and other trainees. These privileges include care of patients via telemedicine.

**Ran Tao, MD, Active Staff**

**Department of Medicine/Hospital Medicine**

Internal Medicine/Hospital Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, providing care via inpatient service and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

**Samantha K. Tyler, DO, Active Staff**

**Department of Pediatrics/Neonatology (NICU Hospitalist)**

Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.

Pediatrics/NICU Hospitalist Core Privileges: Under the supervision of a Neonatologist, privileges include performance of H & P, diagnose, consult and manage premature & critically ill neonatal patients and ill newborns through 6 months of life. These privileges include but are not limited to the following core procedures: arterial lines insertion; umbilical catheter insertion (arterial or venous catheter); endotracheal tube placement/intubation; PICC insertion; and thoracentesis. This care is provided in inpatient settings.

**Margaret R. Walker, MD, Active Staff**

**Department of Medicine/Hospital Medicine**
Internal Medicine/Hospital Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, providing care via inpatient service and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

**Yang Zong, MD, Active Staff**
Department of Pathology and Lab. Medicine
Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training. These privileges also include performance of duties via telemedicine. Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include performance of duties via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Additional Privileges—Medical Staff**
Lindsey R. Boyke, MD
Department of Orthopedics and Rehabilitation/Non-Surgical Orthopedics
Orthopedic Surgery Core Privileges/Non-Surgical care only: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. supervision of physician assistants with prescriptive authority

Paige J. Richards, MD
Department of Ophthalmology/Fellow
Special Competence Medical Retina: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, presenting with complicated illnesses, injuries, and disorders of the retina. These privileges include but are not limited to management of macular disease; written interpretation of ICG angiography, OCT, ERG, ultrasound of the globe.

Muhammad Usman, MD
Department of Medicine/Hospital Medicine
Lumbar Puncture

**Additional Privileges—Advanced Practice Providers**
Michael E. Barnes, PA
Department of Surgery/Cardiothoracic
Endoscopic Radial Artery Harvest

Jami E. Hagemann, PA
Department of Emergency Medicine
UW Medicine/Critical Care (PA)

Amy K. Kirk, PA
Department of Medicine/Hematology, Oncology, and Palliative Care
Chemotherapy Ordering

Nathaniel G. Kitzmann, PA
Department of Neurology/General
Botox Injections and Trigger Point Injections

**Status Changes with Addition of Privileges**
Rita A. Peterson, PA
Department of Medicine/Endocrinology
General PA core, PA Endocrinology Core, Prescriptive Authority

**New Applications—Medical Staff**

**Amanda L. Barrella, MD, Active Staff**
**Department of Anesthesiology/General**
Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

**Jaime L. Bergh, PsyD, Clinical Psychology**
**Department of Pediatrics/Developmental**
Psychological testing: children (under 12)
Psychological testing: adolescents
Psychological testing: adults
Individual psychotherapy: children (play)
Individual psychotherapy: adolescents
Individual psychotherapy: adult
Behavior modification
Family therapy
Group therapy
Psychoeducational counseling
Psychoeducational testing
Psychological consultation

**James T. Bernatz, MD, Active Staff**
**Department of Orthopedics and Rehabilitation/Orthopedic Surgery**
Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. Supervision of physician assistants with prescriptive authority
Fluoroscopy

**Nicole A. Boschuetz, MD, Active Staff**
**Department of Medicine/Gastroenterology & Hepatology**
Gastroenterology and Hepatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of
esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms; colonoscopy with polypectomy; liver biopsy; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Adult Moderate Sedation at all UWHCA locations

**Matthew W. Caldis, MD, Active Staff**

**Department of Medicine/Gastroenterology & Hepatology**

Gastroenterology and Hepatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia

Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement

Upper Gastrointestinal and Enteric: Pneumatic dilation for achalasia

**William B. Cammarano, III, MD, Active Staff**

**Department of Anesthesiology/General**

Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

**Annamarie L. Carley, MD, Active Staff**

**Department of Pathology and Lab. Medicine**

Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training. These privileges also include performance of duties via telemedicine. Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include performance of duties via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Andrew D. Crowell, DDS, Active Staff**

**Department of Surgery/Plastic**

GENERAL DENTAL PRIVILEGES – operative restorations

GENERAL DENTAL PRIVILEGES – treatment of minor infections

GENERAL DENTAL PRIVILEGES – removal of minor benign lesion

GENERAL DENTAL PRIVILEGES – biopsy

GENERAL DENTAL PRIVILEGES – uncomplicated extractions

GENERAL DENTAL PRIVILEGES – extraction of simple tissue impacted teeth

GENERAL DENTAL PRIVILEGES – treatment of traumatic dental injuries

GENERAL DENTAL PRIVILEGES – treatment of minor intraoral wounds

GENERAL DENTAL PRIVILEGES – dental prophylaxis and root planing

GENERAL DENTAL PRIVILEGES – extraction of complex impacted teeth

PEDiATRIC DENTISTRY CORE PRIVILEGES- general dental core privileges

PEDiATRIC DENTISTRY CORE PRIVILEGES- interceptive orthodontics

PEDiATRIC DENTISTRY CORE PRIVILEGES- behavioral, physical and pharmacologic (non-parenteral) management for patients unable to cooperate

**Ruth J. Davis, MD, Active Staff**

**Department of Surgery/Otolaryngology**

Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.

Use of surgical laser

**George W. DeLeon, MD, Active Staff**
**Department of Anesthesiology/General**

Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

**Sarah Maria H. Donohue, MD, Active Staff**

**Department of Medicine/Rheumatology**

Rheumatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with rheumatologic disorders. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, diagnostic or therapeutic aspiration or injection of joints, bursae, and tenosynovial structures; percutaneous needle biopsy of the synovium, muscle, and adipose tissue; supervision of advanced practice providers; and supervision of residents, fellows, and others in training.

**Laura L. Dos Reis, MD, Active Staff**

**Department of Pediatrics/General**

Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.

**Marc H. Labovich, MD, Active Staff**

**Department of Pathology and Lab. Medicine**

Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include performance of duties via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Awn J. Ledbetter, MD, Active Staff**

**Department of Anesthesiology**

Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

**Michelle A. LeRoy Hatheway, PhD, Clinical Psychology**

**Department of Psychiatry**

Psychological testing: children (under 12)
Psychological testing: adolescents
Psychological testing: adults
Individual psychotherapy: children (play)
Individual psychotherapy: adolescents
Individual psychotherapy: adult
Behavior modification
Group therapy
Psychoeducational counseling
Psychoeducational testing
Psychological consultation

**Leanne M. Mansfield, MD, Active Staff**

**Department of Pediatrics/Rheumatology**

Pediatric Rheumatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with documented or possible rheumatologic diseases. These privileges include, but are not limited to, diagnostic aspiration of synovial fluid from joints, bursa, and tenosynovial structures; arthrocentesis; skin biopsy; provision of immediate and longitudinal care for adults previously treated for pediatric rheumatologic diseases; and supervision of residents, fellows and others in training.

**Justin T. Massey, MD, Active Staff**

**Department of Medicine/Infectious Disease**

Infectious Diseases Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with infectious or immunologic diseases. These privileges include care of patients via telemedicine. These privileges include supervision of advanced practice providers; and supervision of residents, fellows, and other persons
in training.

Nicci Owusu-Brackett, MD, Active Staff
Department of Surgery/Surgical Oncology
General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges include care of patients via telemedicine.
Adult Moderate Sedation at all UWHCA locations
Use of surgical robot for procedures otherwise privileged to perform.

Robin Paudel, MD, Active Staff
Department of Medicine/Allergy, Pulmonary & Critical Care
Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patient in need of critical care. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, central line and Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; supervision of advanced practice providers; and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.
Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, admit, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; direct laryngoscopy, diagnostic flexible bronchoscopy; including transbronchial lung biopsy, transbronchial needle aspiration, endobronchial ultrasound. Therapeutic bronchoscopy including simple reduction and treatment of bleeding and opening of blocked bronchi; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; needle aspiration of the chest; chest tube placement; pulmonary treadmill exercise testing; supervision of advanced practice providers; and supervision of residents, fellows, and others in training.
Fluoroscopy
Adult Moderate Sedation at all UWHCA locations

Stephen P. Polanski, MD, Active Staff
Department of Radiology/Fellow (Abdominal Imaging)
Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine and fluoroscopy in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography, supervision of physician assistants with prescriptive authority, and supervision of residents, fellows and other trainees. These privileges include care of patients via telemedicine.

Krista M. Reagan, MD, Active Staff
Department of Obstetrics and Gynecology/Female Pelvic Medicine and Reconstructive Surgery
Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training.
Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.
Use of surgical robot for procedures otherwise privileged to perform.

Ziad M. Sad Aldeen, MD, Active Staff
Department of Medicine/Hospital Medicine
Internal Medicine/Hospital Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges include, but are not limited to, providing care via inpatient service and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and
supervision of residents, fellows, and others in training.
Arterial Line Insertion
Central venous catheter insertion for access
Lumbar Puncture
Paracentesis
Thoracentesis

**Matthew W. Shore, MD, Active Staff**
**Department of Radiology/Pediatric Imaging**
Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine and fluoroscopy in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography, supervision of physician assistants with prescriptive authority, and supervision of residents, fellows and other trainees. These privileges include care of patients via telemedicine.
Pediatric Imaging: Including but not limited to Image guided intussusception reduction with liquid or air; Imaged guided catheter placement in children; Imaged guided needle, biopsy, ablation, drainage or aspiration in children; Image guided analysis for surgery, biopsy or treatment planning using any imaging modality, in children

**Douglas W. Snyder, MD, Active Staff**
**Department of Ophthalmology**
Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows and others in training. These privileges also include care of patients via telemedicine.
Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including removal of radioactive plaque, corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation; supervision of physician assistants with prescriptive authority; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.
Use of surgical laser - Argon for glaucoma.
Use of surgical laser - Argon and Diode for panretinal laser.
Use of surgical laser - Diode for glaucoma.
Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.
Adult Moderate Sedation at all UWHCA locations

**Benjamin L. Spector, MD, Active Staff**
**Department of Pediatrics/Nephrology**
Pediatric Nephrology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children, and adolescents with documented or possible nephrologic disease. These privileges include, but are not limited to, hemodialysis; peritoneal dialysis; hemofiltration; kidney biopsy; paracentesis; peritoneal dialysis catheter placement; hemodialysis catheter placement; provision of immediate and longitudinal care for adults previously treated for pediatric nephrology conditions; and supervision of residents, fellows and others in training.

**Saryn V. Stramecki Doucette, MD, Active Staff**
**Department of Pathology and Lab. Medicine**
Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include performance of duties via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Connie X. Wang, MD, Active Staff**
**Department of Dermatology**
Dermatology Core Privileges: Privileges to admit, evaluate, diagnose, consult, and treat patients presenting with illnesses and or injuries of the integumentary system. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, excision or other means of removal (including by liposuction) of benign and malignant lesions; curettage; electrosurgery; liquid nitrogen cryosurgery of the skin and other appropriate lesions; nail surgery; actinotherapy treatments (phototherapy - e.g. PUVA); collagen implantation; injectable fillers; Botox injections; dermabrasion; chemical peels; laser treatments; sclerotherapy; dermatopathology; flaps and grafts; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

**Joshua D. Warner, MD, Active Staff**
**Department of Radiology/Abdominal Imaging**
Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine and fluoroscopy in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthograms and joint aspirations, venography of major vessels, lumbar puncture, mammography, supervision of physician assistants with prescriptive authority, and supervision of residents, fellows, and other trainees. These privileges include care of patients via telemedicine.

Abdominal Imaging: Including but not limited to Image guided analysis for surgery, biopsy or treatment planning using any imaging modality; Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation; guided needle, biopsy, ablation, drainage or aspiration; Image guided catheter placement; Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.

Adult Moderate Sedation

Eric J. Weinlander, MD, Active Staff
Department of Ophthalmology

Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of residents, and supervision of residents, fellows and others in training. These privileges also include care of patients via telemedicine.

Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including removal of radioactive plaque, corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation; supervision of physician assistants with prescriptive authority; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

Use of surgical laser - Argon for glaucoma.
Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.
Use of surgical laser - Keratorefractive surgery

Erica Y. Yamamoto, DO, Active Staff
Department of Family Medicine and Community Health/Fellow (Integrative Health)

Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient’s life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; arthrocentesis; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Ran C. Zhang, MD, Active Staff
Department of Obstetrics and Gynecology/Gynecologic Oncology

Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.

Special competence - Gynecologic Oncology: Privileges to admit, evaluate including performance of H&P, diagnose,
consult and provide surgical and therapeutic treatment to women with malignant diseases, including carcinomas of the cervix, uterus, vulva, and vagina. These privileges include, but are not limited to, microsurgery; venous access procedures; chemotherapy; use of surgical laser; pelvic exenteration; vulvectomy; performance of procedures on the bowel, ureters, urethra, and bladder; radical hysterectomy with lymph node dissection; skin grafts and myocutaneous flaps for reconstruction; splenectomy; and retroperitoneal surgery for cancer. Use of surgical robot for procedures otherwise privileged to perform.

**Additional Privileges—Medical Staff**

**Amy L. Jaeger, MD**  
**Department of Medicine/Allergy, Pulmonary & Critical Care**  
Robotic Bronchoscopy

**Monica Yun Liu, MD**  
**Department of Medicine/Allergy, Pulmonary & Critical Care**  
Advanced ventilator management

**Katrina M. Wolfe, MD**  
**Department of Medicine/Hospital Medicine**  
Lumbar Puncture

**New Applications—Advanced Practice Providers**

**Mackenzie J. Andropolis, PA, Physician Assistant**  
**Department of Medicine/Cardiovascular Medicine**  
General PA Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of any patient regardless of age and in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, incision and drainage of abscess, injections, suturing, wound care, and ordering respiratory therapy and blood products. These privileges also include care of patients via telemedicine.  
PA Cardiovascular Medicine Core Privileges: Privileges to manage and treat patients with cardiovascular disease.  
Prescriptive Authority

**Brittany C. Cruz, NP, Advance Practice Nurse**  
**Department of Surgery/Minimally Invasive**  
Adult NP Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of adolescent and adult patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.  
Pediatric NP Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of pediatric patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.  
NP General Surgery Core Privileges: Privileges to manage and treat patients in need of surgical care and related issues.  
Prescriptive Authority

**Erica M. Drapeau, NP, Advance Practice Nurse**  
**Department of Pediatrics/Neonatology**  
Pediatrics/Neonatology NP Core Privileges: Under the direction of and in collaboration with a physician, the NP is granted privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage premature & critically ill neonatal patients and ill newborns through 1 (one) year of life. These privileges include but are not limited to the following core procedures: umbilical catheter insertion (arterial or venous catheter); endotracheal tube placement/intubation; PICC insertion; thoracentesis, suturing, and wound debridement. These privileges also include ordering respiratory therapy and blood products.  
Prescriptive Authority  
Arterial lines insertion  
Lumbar puncture

**Shelly S. Lineberger, NP, Advance Practice Nurse**  
**Department of Surgery/Cardiothoracic**  
Adult NP Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of adolescent and adult patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.  
NP Cardiothoracic Surgery Core Privileges: Privileges to manage and treat patients with cardiothoracic surgical needs and related issues.  
Prescriptive Authority

**Julia L. Oanes, PA, Physician Assistant**
Department of Surgery/Surgical Oncology
General PA Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of any patient regardless of age and in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, incision and drainage of abscess, injections, suturing, wound care, and ordering respiratory therapy and blood products. Assist in surgery to include, but not limited to, first assist on major or minor surgeries. These privileges also include care of patients via telemedicine.
PA General Surgery Core Privileges: Privileges to manage and treat patients in need of surgical care and related issues.
Prescriptive Authority
Kim A. Peiffer, PA, Physician Assistant
Department of Surgery/Otolaryngology
General PA Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of any patient regardless of age and in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, incision and drainage of abscess, injections, suturing, wound care, and ordering respiratory therapy and blood products. Assist in surgery to include, but not limited to, first assist on major or minor surgeries. These privileges also include care of patients via telemedicine.
PA Otolaryngology Surgery Core Privileges: Privileges to manage and treat patients with otolaryngology issues.
Prescriptive Authority
Rachel J. Radel, PA, Physician Assistant
Department of Surgery/Surgical Oncology
General PA Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of any patient regardless of age and in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, incision and drainage of abscess, injections, suturing, wound care, and ordering respiratory therapy and blood products. Assist in surgery to include, but not limited to, first assist on major or minor surgeries. These privileges also include care of patients via telemedicine.
PA General Surgery Core Privileges: Privileges to manage and treat patients in need of surgical care and related issues.
Prescriptive Authority
Kara E. Vogel, NP, Advance Practice Nurse
Department of Anesthesiology
Adult NP Core Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of adolescent and adult patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.
NP CT ICU Core Privileges: Privileges to manage and treat patients in need of critical care.
Prescriptive Authority

Additional Privileges--Advanced Practice Providers
Ellie M. Ament, NP (Family Nurse Practitioner)
Department of Medicine/Hematology, Oncology, and Palliative Care
Adult Moderate Sedation
Andrea K. Christensen, NP (Family Nurse Practitioner)
Department of Urology
RN First Assist
Leah M. Colligan, NP (Pediatric NP - Primary Care)
Department of Pediatrics/Genetics & Metabolism
Adult NP Core Privileges (Genetics & Developmental)
Anna C. Hormig, NP (Adult Gerontology Acute Care NP)
Department of Surgery/Acute Care and Regional General
NP Pediatric Core Privileges
Courtney E. Hoy, NP (Family Nurse Practitioner)
Department of Medicine/Allergy, Pulmonary & Critical Care
Pediatric Sleep Medicine Privileges
Rachel M. Ketter, PA
Department of Surgery/Otolaryngology
Binocular Microscopy
Sara L. Moldenhauer, PA
Department of Orthopedics and Rehabilitation/Rehab Medicine
Intrathecal pump interrogation, intrathecal pump refill, and intrathecal pump reprogramming
Eric D. Rogers, PA
Department of Medicine/Cardiovascular Medicine
VAD Privileges  
Elizabeth E. Rushing, PA  
Department of Neurology  
Botox Injections, Trigger Point Injections, Occipital Nerve Block, and Supraorbital Nerve Block  
Molly A. Russell, NP (Family Nurse Practitioner)  
Department of Pediatrics/Critical Care  
Adult NP Core, Pediatric NP Core, NP Family Medicine Core, and Prescriptive Authority  
Kelsey L. Shadel, NP (Adult Gerontology Primary Care NP)  
Department of Neurological Surgery  
Shunt Programming

**Status Changes/Transfer**

Heather A. Danke, NP (Acute Care Pediatric Nurse Practitioner) as part of transfer to:  
Department of Pediatrics/Hem Onc  
Pediatric NP Core, NP Pediatric Hematology & Oncology Core Privileges, and Prescriptive Authority  
Kathleen L. Gorenc, NP (Pediatric NP - Acute Care) as part of transfer to:  
Department of Radiology/Pediatric  
Pediatric NP Core Privileges; NP Interventional Radiology Core Privileges; Prescriptive Authority

**Focused Professional Practice Evaluation Review**

The following focused review applications have been endorsed by the UWHC Credentials Committee and the appropriate peer committee, if applicable, and are recommended to the Medical Board for approval/action:
